

2002 Volvo V70 S 20v 7 Seater

£3995.00

This Volvo V70 has a factory fitted 7 seat conversion fitted making it a practical alternative to a people carrier. With all 5 rear seat folded flat into the floor the Volvo also makes an extremely capacious load lugger. Through a number of years selling Volvos I have come to learn that no two cars are ever the same, specification wise due to a long list of optional extras available when buying the car new. The original purchaser of this Volvo certainly raided that optional extras list with factory fitted 16" alloy wheels, winter pack (heated seats, headlight wipers and tailored carpet mats), 7 seat conversion, roof rails, luggage nets, rear load area blinds etc. The current owner also had a tow bar with single point electrics fitted when he purchased the car.

Supplied new by 'Hildenborough Volvo' of Tonbridge, Kent the Volvo was originally a company vehicle and went to its second and only other owner when it was just 3 years old. The Volvo has covered 106,000 miles in its 8 year life and has a full and

extensive service history with 10 stamps in the book. The first 6 services were carried out by Volvo main agents and the remaining 4 with local independent garages. The Volvo has just had a full service carried out in our on site workshop which also included the replacement of the auxiliary drive belt, all using genuine Volvo parts as well as new wiper blades all round including headlight wipers. The cam belt was last replaced at 77,096 miles on 08.11.2006.

Condition wise the Volvo is in excellent condition its age as can be seen in the photographs. Externally there are a few minor age related blemishes and stone chips, these have all been touched up where possible and they do not detract from the overall look or usability of the car. Internally the upholstery and plastic is also in excellent condition with no significant rips or tears and only a few very minor loading marks. Everything is present and correct including the original tool kit, hand books etc. and everything works exactly as it did when it left the factory.

Specification includes, 170bhp 20v fuel injected 5 cylinder engine, 5 speed manual gearbox, 4 x electric windows, electric door mirrors, original Volvo radio cassette and compact disc player with steering wheel mounted controls, air conditioning, remote central door locking with 2 keys and 2 fobs, driver's, passengers and side air bags, power assisted steering, anti-lock brakes, 'side impact protection system', stability & traction control, cruise control, alarm & immobiliser; 16" 7 spoke alloy wheels, roof rails, tow bar, headlight wipers; 7 seat conversion heated front seats; 60/40 split rear seats; rear head restraints, 3 x 3 point rear seat belts, load cover, rear load area blinds, luggage net, tailored carpet mats and cup holders.

For the full asking price the vehicle will come with 12 months M.O.T., a 6 month Silver Pus Warranty (details available on request) and is taxed until the 30th of June 2010.

Facts and figures

General

Production	1 Jan 2000 -1 Jul 2004	Weight	1485 kg
