

2007 Honda Legend EX V6 VTEC Auto

16'250.00

"Honda is not a name that's usually associated with executive cars, the big German three of Audi, B.M.W. and Mercedes Benz dominate this market. The Legend is Hondas attempt to muscle in on the established makes and it has plenty going for it. It is loaded with innovative technology, comes generously equipped and is good to drive too. The Honda Legend is one of the most advanced cars in its class while limited numbers mean it will remain a rare sight on the road".

This quite remarkable car is offered for sale at less than half of the original manufacturers recommended retail price when new, in a condition and with a mileage that makes it essentially just run in. Originally registered as a demonstrator by the supplying dealer this is the top of the range model with 'ADAS' (advanced drive assist system), 'CMBS' (collision mitigation brake system) and optional extra 18" alloy wheels. I am selling the vehicle on behalf of a customer, after trading his 1997 Legend in for this newer and far superior model just over a year ago, he has just purchased a new house which he is currently renovating and not only is he concerned

for the future of the vehicle if it were to be used as a builders van, he also feels his cash would be better spent on a new kitchen, bathroom etc.

Supplied new by 'City Honda' of Basingstoke the Legend has covered just 17,000 miles in its 2 year life and has always been maintained regardless of cost having a full main dealer service history with 2 stamps. The vehicle was first serviced at the supplying dealer and has also just been serviced at the local Honda main agent which as well as the annual service also included the replacement of the wiper blades and 2 tyres. Although not technically due for its first M.O.T. until September the vehicle will be come with a new M.O.T. on purchase.

Condition wise the Legend is in excellent, almost as new condition as can be seen in the photographs. Externally there are a few very minor blemishes and stone chips, these have all been touched up where possible and they do not detract from the overall look or usability of the car. Internally the leather upholstery and plastic trim is also in excellent as new condition with everything present and correct including the full tool kit, hand

books etc. and everything works exactly as it did when it left the factory. I even have the original sales brochure for the new owner.

Additional extras include, 290 bhp 3471cc 24v VTEC V6; 5 Speed Automatic Gearbox with Paddle Shift Gear Selector; Front & Rear Electric Windows; Electric/Heated/Folding/Dimming Door Mirrors; Electric Sun Roof; Electric Rake/Reach Steering Column; Radio & 6 Disc CD Multi-changer; DVD Satellite Navigation; Climate Control; Remote Central Door Locking; Multiple Air Bags; Power Assisted Steering; Anti-Lock Brakes; Electronic Stability Programme; Collision Mitigation Braking System; Advance Drive Assist System; 18" Alloy Wheels; Alarm & Immobiliser; Rear View Camera Kit; Full Leather Upholstery; Heated Electric Front Seats; 'Isofix' Child Seat Anchorage Points; Blue Tooth; Tailored Carpet Mats; Front & Rear Cup Holders; Front Fog Lights.

For the full asking price the vehicle will come with a new 12 month M.O.T and the remainder of the manufacturer's warranty (details available on request).

Facts and figures

General

Production	15 Sep 2006 -31 Dec 2007	Weight	1878 kg
