

## 1993 Subaru Impreza GL 4WD Auto

£995.00

I initially purchased this Subaru for myself and used it as my own personal transport until the tax ran out. However I recently took a Ford Scorpio Ultima V6 Auto in part exchange and as this has a few months tax left to run I am currently using this instead. Although the Scorpio is a lot more powerful, the Subaru wins hands down in the handling stakes with its permanent four wheel drive. With its Japanese build quality and rugged reliability combined with the ability to go off road without losing any of the handling of a road car, it makes a perfect combination.

Supplied new by 'Ashburton Motor Works' of Devon, the Subaru has covered 164,000 miles, however it has a full and extensive service history with 16 stamps. The first 5 of these being at the supplying dealer, the following 9 at both 'Chapelgate Subaru' of Ferndown and 'Vale Motors Subaru' of Yeovil and the

remaining 2 at local independents. The Subaru has just received a full service in our on-site workshop which included the replacement of air & fuel filters and spark plugs. I have also just had the cam belt and rear wheel cylinders replaced. The front brake discs & pads, tyres and exhaust are also relatively new and still in excellent condition.

Condition wise the Subaru is in exceptionally good condition given its age and mileage as can be seen in the photographs. Externally there are a few minor blemishes, dents and stone chips, these have all been touched up where possible and they do not detract from the overall look or usability of the car. Internally the upholstery and trim are in excellent, un-marked condition with no rips or tears and only the very minor of imperfections. Everything is present and correct including the original hand books, tool kit and it all works

exactly as it did when it left the factory.

Additional extras include, 101bhp 16v fuel injected flat four engine, 4 speed automatic gearbox with 'power' & 'economy' modes; 4 x electric windows, electric mirrors, original Subaru 'pull out' radio cassette player; central locking with 3 keys, power steering, load cover, tailored rubber mats, 60/40 split rear seats and rear head restraints.

For the full asking price the vehicle will come with a new 12 month M.O.T and a 6 month Silver Plus Warranty (Details available on request). This vehicle is not affected by the emission related tax premiums and will currently cost only £190.00 a year to tax.

## Facts and figures

### General
