

## 1997 Subaru Legacy GLS AWD

£1695.00

I sold this car to its current owner just under 2 years ago but due to an increasing family he has just had to part exchange it against a 6 seater people carrier. Otherwise I think he would have kept it forever, apart from an annual service the only money he has had to spend on the car in 2 years was for a set of tyres. I too love these cars (I am currently driving another one that I also took in part exchange) and think that they are very under rated. In fact I often sell them to people that come to look at say a Volvo estate and on road testing both end up buying the Subaru. Japanese design and construction means rugged reliability combined with the ability to go off road without losing any of the handling of a road car, in fact it actually improves the handling.

The Subaru has covered just 121,000 miles in its 12 year life, this complemented by a full and extensive service history with 18 stamps in the book and a folder full of receipts. 10 of these services were

carried out at Subaru main dealers, and the remaining 8 all at independent garages. The cam belt and clutch were replaced when I last sold the vehicle at 107,787 miles on 12.11.2007. The Subaru has just had an intermediate service carried out in our on site workshop and recently had 4 new tyres.

Condition wise the Subaru is in exceptionally good condition given its age and mileage as can be seen in the photographs. Externally there are a few very minor age related dents, blemishes and stone chips, with the worst being on the front bumper just above the number plate, these have all been touched up where possible and they do not detract from the overall look or usability of the car. Internally the upholstery and plastic is in excellent un-marked condition with no rips or tears. Everything is present and correct including the original hand books and tool kit and everything seems to work, exactly as it did when it left the factory.

Specification is as follows; 113bhp 16v fuel injected flat four engine, 5 speed manual gearbox; four wheel drive with high & low range; 4 x electric windows, electric mirrors, Sony radio cassette player, remote central door locking with 2 keys & 2 fobs, 2 x air bags, power steering, anti-lock brakes, 16" Subaru Impreza alloy wheels, roof rails, alarm, immobiliser, load cover, new carpet mats, 60/40 split rear seats, rear head restraints, rear bumper guard, chrome exhaust tail pipe and front mud flaps.

For the full asking price the vehicle will come with a new 12 month M.O.T and a 6 month Silver Plus Warranty (details available on request). This vehicle is not affected by the emission related tax premiums and will currently cost only £190.00 a year to tax.

## Facts and figures

### General

Production	1 Apr 1994 to 21 Oct 1998	Weight	1290 kg
Length	4670 mm	Fuel Delivery	Injection
Width	1695 mm	Transmission	Manual
Height	1490 mm	Gears	5 Speed

### Performance

Engine Size	1994 cc	Valves	16
Cylinders	4	Torque	-
0-60 mph	10.2 s	Top Speed	115 mph
Power Output	113 bhp		

### Costs

MPG	30	CO2 Emissions	255 g/km
Insurance Group	14	Road Tax Band	-
Euro Emissions Standard	II		

### Practicality

Wheelbase	2630 mm	Turning Circle	-
Luggage Capacity	-	Unbraked Towing Weight	500 kg
Fuel Capacity	60 L	Braked Towing Weight	1600 kg
