

1998 Vauxhall Vectra LS 16V

£1695.00

"The Vectra is a competent family car, ahead of the pack in terms of space, comfort, a good driving position, generous equipment and competitive running costs" and I can confirm this is an extremely good example having personally covered nearly a thousand trouble free miles in it. Inexpensive, not only to purchase but also to run and maintain on a daily basis, spacious and versatile with enough space to comfortably seat 5 adults or as it is fitted with 3 x 3 point rear seat belts you could also fit three child seats in the rear. The Vectra also has a capacious boot for all your weekly shopping, push chairs etc. and with the rear seats folded flat doubles up as a fantastic load lugger for trips to the tip, taking children to or from University.

Supplied new by 'Vauxhall Motors Ltd' of Manchester possibly as a company car/ demonstrator, it went to its second owner when the vehicle was less than a year old. They subsequently kept the vehicle for the following 7 years before its current owner purchased it. The Vectra has a full and extensive service history with 10 stamps in the

book, a whole folder of corresponding invoices and all the old M.O.T. certificates. This car has always been maintained regardless of cost and I have spent a considerable amount on it myself making it one of the best Vauxhall Vectra B Estates that you can buy for your money so it should give many more years of motoring.

The servicing has been carried out by both Vauxhall main dealers and local independents. The Vectra has just had an intermediate service carried out in our on site workshop which also included the replacement of the pollen filter, rocker cover gasket and spark plugs. I have also replaced a holed air conditioning pipe and the air conditioning system will be fully charged and tested prior to sale. The cam belt, tensioner & idler, front strut top mountings and rear radium arm bushes have also just been replaced by a local specialist. Condition wise the Vectra is in very good condition given its age and mileage as can be seen in the photographs. Externally there are a few minor age related marks, blemishes and stone chips, these

have all been touched up where possible and they do not detract from the overall look or usability of the car. Internally the upholstery and plastic is also in very good condition with no rips or tears. Everything is present and correct including the original tool kit, hand books etc. and everything seems to work exactly as it did when it left the factory. Additional extras include, 113bhp 16v fuel injected 4 cylinder engine, 5 speed manual gearbox, front electric windows, remote door mirrors, original Vauxhall radio cassette player, air conditioning, remote central door locking with 1 key, driver's air bag, seat belt pre-tensioners, power assisted steering, anti-lock brakes, immobiliser, 60/40 split rear seats; rear head restraints, 3 x 3 point rear seat belts, new carpet mats & wheel trims, cup holders, load cover and a ski hatch. For the full asking price the vehicle will come with a new 12 month M.O.T., a 6 month Silver Pus Warranty (Details available on request) and if you are quick a couple of weeks road fund licence. This vehicle is not affected by the emission related tax premiums and will currently cost only £190.00 a year to tax.

Facts and figures

General

Production	1 Nov 1996 -18 Mar 1999	Weight	1340 kg
