

1999 Volvo S40 XS

£1695.00

The S40 is Volvos saloon version of the perhaps more commonly known V40 estate, perfect if you don't need the full loading capacity of an estate but still want a Volvo and all their legendary safety features. You still get a decent load capacity and unusually for a saloon all the seats fold flat as shown in the photographs, meaning you can still transport longer items if required. You can also easily fit a pushchair and a full load of shopping in the back with the seat up and the car benefits from 3 three point rear seat belts. This S40 features Volvo's 4 cylinder 16 valve multi point fuel injected petrol engine with variable valve timing which combined with the five speed manual gearbox can do up to 42.8 mpg, and with petrol being cheaper than diesel these days, it makes for an economic alternative to a diesel Volvo.

Supplied new by 'Evans Halshaw' of Cuffley, the Volvo has a full and extensive service history with

9 stamps in the book. The first 5 services were carried out with the supplying dealer and the following 4 at independents. The Volvo has just had an intermediate service carried out in our on site workshop which also included replacement of the fuel and pollen filters. The cam belt was replaced at 79,937 miles on 22.11.2005 and it had the front and rear brake discs and pads replaced at 94,189 miles on 18.02.2009 at a cost of £336.28.

Condition wise the Volvo is in excellent condition given its age as can be seen in the photographs. Externally there are a few minor age related marks and stone chips, these have all been touched up where possible and they do not detract from the overall look or usability of the car. Internally the upholstery and plastic is in excellent condition with no rips or tears. Everything is present and correct, including the original tool kit etc. and everything seems to work exactly as it did when it left the

factory even the air conditioning.

Additional extras include, 109bhp 16v fuel injected 4 cylinder engine, 5 speed manual gearbox, front electric windows, electric door mirrors, original Volvo radio cassette & compact disc player, air conditioning, remote central door locking with 2 keys and 2 fobs, driver's air bag, power assisted steering, anti-lock brakes, S.I.P.S, immobiliser; 15" 8 spoke alloy wheels, front fog lights, head light wash/wipe, 60/40 split rear seats, rear head restraints, 3 x 3 point rear seat belts, luggage strap & net, tailored carpet mats and electric aerial.

The current M.O.T. expires on July 30th 2010 and for the full asking price the vehicle will also come with a 6 month Silver Pus Warranty (Details available on request). This vehicle is not affected by the emission related tax premiums and will currently cost only £190.00 a year to tax.

Facts and figures

General

Production	1 Sep 1998 - 7 Aug 2000	Weight	1306 kg
Length	4480 mm	Fuel Delivery	Multi point fuel injection
Width	1720 mm	Transmission	Manual
Height	1390 mm	Gears	5 Speed

Performance

Engine Size	1588 cc	Valves	16
